

Activity 15 Make a Lantern

1. Take an A4 piece of paper and decorate with shapes, patterns or own ideas using pencil crayons.
2. Fold the paper in half widthways.
3. Cut from the fold to 4cms from edge about eleven times.
4. Open the sheet out vertical so the cuts go from top to bottom.
5. Glue the two outer edges together lengthways.
6. When dry push the top down slightly to expand the tube so the sides of the lantern come out.
7. Add cotton to the top to hang.
