Supporting people with learning disabilities

Sparkle & Dine Ball

**AN EVENING OF DINING,
DANCING AND FUNDRAISING**

Style Acre

Style Acre supports over 275 adults with learning disabilities and Autism in Oxfordshire. Our person-centred support ranges from 24-hour care for those with complex learning, health and or physical disabilities to a few hours support per week for those who live more independently.

People we support are given the freedom and independence to live with peers in a supported environment through our supported living households. We also run three community hubs in Wallingford, Didcot and Banbury so that people with learning disabilities can get the best out of their local communities.

People can also access sessions at Wantage Market Garden through our Gardening Project, where we teach a range of gardening skills that benefit physical and mental health.

Our Work Programme team supports people to gain paid and voluntary work opportunities both within Style Acre and with local companies.

Thank you HSBC UK

We are delighted that a team from HSBC UK have joined us this evening and we would like to take this opportunity to thank them for their support over the past year and for sponsoring a table for the people we support this evening.

This year with the support of Sharon Hoare and her team at HSBC we were successful in an application to the HSBC Supporting Our Community Fund; securing £35,000 to purchase sensory, play and communication equipment for the people we support.

We also received more than 200 volunteer hours over the year where groups came and helped to decorate and unpack and install the equipment purchased.
